

## **SOQ 2023 – SERVICES**

### **SERVICES: Surveying**

Firm to demonstrate experience in the establishment of boundaries, alignments, limits of right-of-way, etc. to enable the survey to be retraced. This work includes the resolution of conflicting surveys, identifying, and addressing title issues within the scope of the land surveyor's authority, the preparation of certified legal description of the area surveyed and acquisition areas, preparation of right-of-way plans/plats, and measurement of the earth's contours and fixed work to include ground control, aerial mapping, and generation of Nevada State Plane coordinates as specified.

#### Minimum Qualifications

### **EMPLOYEE EXPERIENCE**

A minimum of one (1) Nevada Professional Land Surveyor (PLS) is required. Relevant experience of pipelines, roadway, drainage, flood control, site development or other projects for which boundaries or limits of right-of-way were established is required. The PLS must have been a licensed professional land surveyor for at least five (5) years. Nevada certification as Land Surveyor Intern for all non-registered surveyors is preferred but not mandatory.
