- **THE FOLLOWING QUESTIONS AND CLARK COUNTY WATER RECLAMATION DISTRICT (DISTRICT) RESPONSES ARE HEREBY INCORPORATED AND MADE A PART OF THE ITB:**

1. **“The way the Bid is written it’s difficult to determine exactly what the scope of work really is. The Bid also doesn’t provide no information on the types of waste that’s generated. Would Clark County Water Reclamation be able to provide a list of waste? Would they also be willing to provide a scenario of a cleaning/confined space job that would be needed that we can quote? Also a scenario of a waste pick-up that would be needed?”**

Answer: Please refer to “Revision No. 4” above, SECTION E – SPECIFICATIONS/SCOPE OF WORK: ARTICLE 3.0, GENERAL SERVICES REQUIREMENTS: Items 3.1.1 – 3.2.4.8.

Additionally, the primary reason for the site-visit that perspective bidders were able to attend was to allow an opportunity to physically observe the types of services that may be required and inquire about any other equipment and/or work-related concerns. Due to this being a case-by-case “As Needed” bid, the scope of work was written to cover the broader requirements necessary to address various packaging, removal, transportation, and disposal of hazardous and non-hazardous wastes as a result of a cleanup of any spill or leakage on an emergency and non-emergency basis, including but not limited to chemical or fuel spills, and solid or liquid removal from tanks or wet-well, on-site and off-site. Therefore, once the contract is awarded and a hazardous or non-hazardous situation does occur at a specified DISTRICT location, the SUCCESSFUL BIDDER and DISTRICT Designated Representative shall collaborate and define the best strategy/solution in addressing the hazardous situation by utilizing the established pricing as referenced within EXHIBIT VI – BID FORM (PRICING SHEET). EXHIBIT VI – BID FORM (PRICING SHEET) has been revised in its entirety to elaborate more on the types of waste generated and estimated volumes. Moreover, EXHIBIT VI – BID FORM (PRICING SHEET) breaks out the types of waste/estimated volumes at each designated DISTRICT facility/location separately to allow for perspective bidders the opportunity price those designated sites accordingly.

**ADDENDUM 1
HAZARDOUS AND NON-HAZARDOUS WASTE REMOVAL, TRANSPORTATION, AND DISPOSAL
SERVICES
SOLICITATION NO. ITB-210037**

The various scenarios that the District staff provided at the site-visit are few scenarios of services that would be required of the SUCCESSFUL BIDDER based upon previous encounters/occurrences at DISTRICT facilities/locations. Moreover, Addendum 1 revision 4, Item 3.1.3 is being incorporated into this bid to provide Perspective Bidders with the types of hazardous and non-hazardous waste that could require services. Regardless, the DISTRICT does expect other unique situations to occur in future events and needed to include all possibilities within this bid to cover these various occurrences, which may include cleaning/confined spaces (i.e., area's as small as a manhole) and/or including rates for specialized transportation/equipment such as a small pick-up truck(s) that could be used to haul off smaller volume of hazardous or non-hazardous waste materials, etc. To reiterate, this bid was written to cover the broader requirements necessary to address various packaging, removal, transportation, and disposal of hazardous and non-hazardous wastes on an as needed basis. However, once a situation does occur the DISTRICT will be relying on the SUCCESSFUL BIDDER experience and expertise to present the safest and most effective manner to remove various wastes in accordance with all federal, state, and local laws. Therefore, it is recommended that each perspective bidder accounts for all possibilities that could occur and bid accordingly based upon the established line items as provided within the revised EXHIBIT VI – BID FORM (PRICING SHEET). Finally, all other necessary services that may occur, which are not reflected within the Scope of Work or within EXHIBIT VI – BID FORM (PRICING SHEET) will be addressed following the requirements as referenced within SECTION E – SPECIFICATIONS/SCOPE OF WORK, Provision 31.0 OTHER WORK SERVICES.

2. **“Please confirm the District wants vendors to complete the Bid Form with all-inclusive pricing and with only one hazardous waste liquids/solids category.”**

Answer: Please refer to “Revision 5” above. Please provide your appropriate unit price and extended total for all applicable line items as referenced within the revised EXHIBIT VI – BID FORM (PRICING SHEET).

3. **“I wanted to verify how we are meant to submit our bid? Is it to be submitted in a sealed envelope in person as listed on the solicitation?”**

Answer: Please refer to SECTION B – UNIFORM INSTRUCTION TO BIDDER(S), Provision 26.0 SUBMISSION OF BIDS.

When issued, this Addendum shall automatically become a part of the solicitation documents and shall supersede any previous specification(s) and/or provision(s) in conflict with the Addendum. All revisions, responses, and answers incorporated into this Addendum are collaboratively from both the DISTRICT Purchasing Solutions Division and the applicable End-User Department. It is the responsibility of the bidder to ensure that he/she has obtained all such Addendum(s). By submitting a bid on this project, bidders shall be deemed to have received all Addendum(s) and to have incorporated them into this ITB.
